

How many years of warranty for pure electric new energy batteries

Do electric car batteries have a warranty?

Still, car manufacturers have stepped up with excellent warranties on EV batteries. Here's what you need to know. Most automakers have an 8 to 10-year or 100,000 miles warranty period on electric car batteries. This is because federal regulation in the U.S. mandates that electric car batteries be covered for a minimum of eight years.

How long do electric car battery warranties last?

Electric car battery warranties often have the longest coverage of all the warranty types available. Most manufacturers offer warranties that last eight years or 100,000 miles, whichever comes first.

When does EV battery warranty start?

Coverage for an EV battery warranty begins at the date and mileage when the vehicle is first sold. For example, if you purchased your EV on July 2, 2022, that's the start date of your warranty coverage. When Does an Electric Car Battery Warranty End?

How long does an EV warranty last?

Unless you drive in unsafe conditions or abuse the battery in your car, truck, or SUV, you will have a shoulder to lean on if something occurs. Although eight years seems to be the bare minimum for EV sales in the U.S., that doesn't mean you only see that amount of warranty coverage.

How long do electric car batteries last?

Here's what you need to know. Most automakers have an 8 to 10-year or 100,000 miles warranty period on electric car batteries. This is because federal regulation in the U.S. mandates that electric car batteries be covered for a minimum of eight years. However, the terms of the warranty can vary.

Can a car battery be replaced under warranty?

Some carmakers will only replace the battery under warranty coverage if there is a failure. Unfortunately, that means the battery has to stop working to merit replacement. However, some carmakers will replace the EV battery if its capacity drops below a certain percentage.

Denza: Battery 6 years or 150,000 km warranty. The first pure electric vehicle to be manufactured by BYD and Daimler, the Denze has a range of 300 kilometers on lithium-ion ...
