

New energy vehicles with unlimited mileage battery warranty

What is a limited warranty EV battery?

Limited warranties provide coverage for a certain 'limited' duration, usually, this will be a combination of time and mileage. Just like with an EV charger warranty, if an EV battery fails because of manufacturing defects within the warranty period, then the car manufacturer should repair or replace it at no additional cost to the owner.

What is the best EV battery warranty in 2024?

California requires a 10-year, 150,000-mile warranty on EV and hybrid batteries. Still, EV battery warranties vary considerably, especially when it comes to degradation. These are the best electric vehicle warranties in 2024. The top of the list was unexpected to say the least! Rivian (8 years or 175,000 miles) Surprise!

Are electric car battery warranties transferable?

Yes, electric car battery warranties in the UK are usually transferable to a new owner, as the warranty tends to be attached to the vehicle itself rather than the individual who purchased it.

Which EV battery brands have the best warranty?

The table below lists the warranty duration and mileage for the leading EV brands in the UK. Fisker and Lexus offer the best EV battery warranties among the brands listed. Both Fisker and Lexus provide a 10-year or 100,000-mile warranty, which is longer than the 8-year duration offered by most other brands.

How do I choose the best electric car battery warranty?

When comparing electric car battery warranties, there are a number of points to look at in order to find the best warranty for your needs: Assess what aspects of the battery are covered under the warranty, such as manufacturing defects and if the capacity gets worse.

Do electric car batteries have a warranty?

The electric car battery warranty can sometimes be overlooked during the purchase process - let's face it, a warranty is not really as glamorous as the paint colour or the heated seats.

Nio, a leading Chinese new energy vehicle startup, signed a framework deal with battery maker CATL on Thursday to develop batteries that can power electric vehicles for up to 15 years, almost double the current national warranty standard. They are yet to give a production schedule for the new longer-life batteries.
